

## *Spacek Wall Sconce*

MATTHEW FAIRBANK  
— DESIGN —

*Description* The Spacek Wall Sconce features a minimal forged metal body that supports a warm glass lens. Light filters through bronze, smoke, or starphire glass. The fixture body is available in a variety of metal finishes that can be coordinated to match a range of architectural or residential environments. The narrow fixture body is ADA compliant and houses environmentally friendly LED bulbs for minimal power consumption.

*Year of Design* 2013

*Material* Solid forged brass body and tempered glass lens.
